

Project Management

An increasing number of clients are choosing consultants experienced in Project Management to procure their development proposals.

The benefit of Project Management to the client is the single point of contact with a professional who can keep the client up to date on their main elements of interest, in respect of the development.

BCAL have the professional expertise to provide Project Management services, enabling clients to relax in the knowledge that the necessary skills are being applied to their development proposal, ensuring procurement to the quality required, on time and within budget through a single point of contact.

Project Management services vary from one undertaking to another. The service being provided is tailored to individual, precisely defined client requirements.

The services are appropriate to different procurement methods, including design and build or traditional design and tender.

For example, the service can comprise finance procurement, writing the development brief, assisting with the selection of the design team, acting as the link between the team and the client throughout the duration of the project, financial control, and after-care maintenance
